

## CFI Open Forum - Teaching Emergencies - (OPEN TO ALL PILOTS)

FAA Safety Inspectors will provide a guided discussion that will engage you in open dialogue designed to enhance learning for all. Many non-normal/abnormal situations (and emergencies) become accidents because pilots fail to consider what constitutes an emergency vs. a non-normal less threatening occurrence. Why you might want to "count to 10" before doing anything, as opposed to acting too quickly and causing the situation to get worse? Do you have a plan of action to deal with the worst before you take off?

**Directions:** CFI Open Forum will be held at Portland Community College, Rock Creek Campus. Follow the "FAA" signs to Building 6, referred to as Hangar, Room 110. Parking Lot A. Receive required parking pass when checking in. Ref. the "rc-campus-map.pdf" attached below

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
